

# SENIOR FRONTEND DEVELOPER (F/M/X)

Salzburg or Vienna  
Full time

APPLY  
NOW!

We are AMRAX®.

We create technology to shape your space.

We are an extraordinary team of young scientists, coders and marketing experts working on AI-based digital content creation and marketing. With our Metaroom by Amrax® App, we aim to revolutionize the field of interior design and e-commerce. A positive corporate culture with humility and respect for each other and our customers is in our DNA and we are always looking for creative ideas and solutions. As a Start-Up founded in 2020, we offer exciting challenges such as research-driven development work at the forefront of 3D reconstruction and Deep Learning. We are now looking for a Senior Frontend Developer to support our rapidly growing Team.

## ABOUT THE JOB

As a Senior Frontend Developer with extensive experience, you are passionate about creating engaging and intuitive web applications. Your main responsibility is to lead the development of a Vue application, from the initial planning and design stages to testing and deployment. In addition to hands-on development, you will be responsible for conceptualizing and implementing the frontend architecture, as well as conducting code reviews to ensure the highest level of quality and maintainability. With your skills and experience, you will play a vital role in the success of our team and projects. By joining our dynamic team of tech-enthusiasts and researchers, you will have the opportunity to apply and expand your skills in a highly collaborative and flexible working environment that encourages personal and professional growth.

## ABOUT YOU

- You are an experienced Frontend Developer
- You have several years of experience in web development
- You have hands-on experience with web frameworks such as Angular, Vue, and React
- You have a deep understanding of HTML, CSS, and TypeScript
- You like working in an agile environment using Scrum methodologies
- Experience with three.js, DevOps or Java (Spring Boot) is a plus
- You are a team player with strong collaboration skills
- You are willing to share your knowledge with colleagues
- You have excellent command of English language
- You will be working with a tech stack that includes Vue, TypeScript, Tailwind and Vitest
- You will be deploying using Terraform on AWS
- You will have the freedom to choose your own development environment.
