We are AMRAX®.

We create technology to shape your space.

Amrax®, the technology platform behind Metaroom was founded in April 2020 with the goal of exploring new digital ways to digitize and design spaces. It uses forward-thinking 3D technology to reimagine space planning and interior design. Amrax® offers solutions that are fast, inspiring and user-friendly. Interdisciplinary collaboration in the fields of computer vision, deep learning and virtual reality enable these groundbreaking innovations. The team consists of 25 visionaries, AI and computer vision experts, software developers and marketing experts working on the creation and marketing of the product. Headquartered in Salzburg, Austria, Amrax® also operates in Vienna and the USA.

## ABOUT THE JOB

You reinforce our growing tech-solutions team, empowering our vision of revolutionizing the field of interior design. With our dynamic lineup of tech-enthusiasts and researchers, we offer you the opportunity to apply and grow your skills in a highly collaborative and flexible working environment. We think that your skills in unfolding the potential of 3D visualization frameworks are crucial to making our vision a reality.

## ABOUT YOU

- ◆ You enjoy thinking about elegant and maintainable solutions.
- ◆ Working with AI-driven backend development is something you take pleasure in.
- ◆ You have fun composing modern user interactions in Unity.
- ◆ You enjoy implementation in a mobile ecosystem with a cloud backend.
- ◆ You have an understanding of modern software development.
- ◆ The jungle of modern 3D visualization is your home.
