

SENIOR JAVA DEVELOPER (F/M/X)

Salzburg or Vienna
Full time

APPLY NOW!

We are AMRAX®.

We create technology to shape your space.

We are an extraordinary team of young scientists, coders and marketing experts working on AI-based digital content creation and marketing. With our Metaroom by Amrax® App, we aim to revolutionize the field of interior design and e-commerce. A positive corporate culture with humility and respect for each other and our customers is in our DNA and we are always looking for creative ideas and solutions. As a Start-Up founded in 2020, we offer exciting challenges such as research-driven development work at the forefront of 3D reconstruction and Deep Learning. We are now looking for a Senior Java Developer to support our rapidly growing Team.

ABOUT THE JOB

As a Senior Java Developer with extensive experience, you are passionate about creating robust and scalable back-end systems. Your main responsibility is to lead the development of Spring Boot microservice applications, from the initial planning and design stages to testing and deployment. In addition to hands-on development, you will be responsible for conceptualizing and implementing the backend architecture, as well as conducting code reviews to ensure the highest level of quality and maintainability. With your skills and experience, you will play a vital role in the success of our team and projects. By joining our dynamic team of tech-enthusiasts and researchers, you will have the opportunity to apply and expand your skills in a highly collaborative and flexible working environment that encourages personal and professional growth.

ABOUT YOU

- You are an experienced Senior Java Developer with a passion for creating robust and scalable back-end systems
- You have several years of experience in Java and Spring Boot development, as well as experience in software architecture
- You have experience working in an agile environment and are familiar with Hibernate, Gradle and Deployment using Terraform on AWS
- You have a strong understanding of DevOps practices and have a passion for cloud technologies
- Experience with TypeScript or Vue is a plus
- You enjoy working in a team and are dedicated to sharing your knowledge with others
- English proficiency is a must for you.
